### THE GIN & TONIC'S STORIED HISTORY

*The origin of our nation's favourite libation can be traced back to 1857 when the British crown took governance of India. As Brits made their way to the Indian subcontinent, early immigrants struggled with the ravages of malaria in the tropical climate and scurvy during the long sea journeys. Tonic water and its defining ingredient – quinine, became an essential part of Britain's colonialism and it didn't take long for resourceful Brits to realise that the addition of gin, ice and citrus was the perfect way to not only temper the bitterness, but actually make it extremely drinkable!*
