

PICCOLINO

WINE

Our Head Sommelier, Dario Barbato, travels extensively meeting producers and selecting wines for our restaurants, many of which you will not find anywhere else in UK.

With more than twenty wines by the glass and using the latest in wine preservation technology – our list showcases not only some of the finest wines from Italy, but also our affinity for winemakers who work in sync with nature by producing characterful wines using only organically grown grapes.

We love working with winemakers who grow their grapes organically and work in sync with nature rather than against it. Wines in this section have been certified as being made from organically grown grapes with only natural methods used for controlling insects, disease and weeds. No herbicides, pesticides or chemical fertilisers were used in their production and only approved natural substances were applied in the vineyards and the winery. The use of sulphur dioxide as a preservative is dramatically lowered versus conventionally made wines.
